

TYRES WORTH OWNING

LATEST GENERATION TYRE TECHNOLOGY

MEASURED BY T.C.C

RUGGED TREK

60% Road & Sand

40% Dirt & Mud

TREAD TECHNOLOGY - for extended tread life and enhanced cut and chip resistance, while delivering improved stability and control.

CARCASS CONSTRUCTION - high tensile body ply is 20% stronger, giving you enhanced resistance to impact damage.

COMPOUND FORMULA - provides excellent wet traction and highway handling while lowering rolling resistance, for more grip and better fuel efficiency.
